

## - How To withdraw SPI on BITTREX Global?

1. Click on **Holdings** in the upper right of the page.

2. Search for SPI wallet you want to withdraw from by using the search box in the upper right.

3. Click **Withdraw** under **Holdings**. This will bring up the withdrawal screen.

4. Enter the **Recipient Wallet Address** and **Quantity** that you want to withdraw. Make sure the address you enter was created for SPI. If you withdraw to another coins address you risk losing your funds permanently.
5. Click **Withdraw**.
6. If you have two-factor authentication (2FA) enabled, you will need to enter your 6 digit code and press **Confirm**. If you do not have 2FA enabled you will need to log in to your email account and click the verification link we send you.

**Note:** The minimum withdrawal for SPI on Bittrex must be greater than 3 times the fee.

## How to withdraw SPI on Gate.io website:

Step 1: Log in to your account and go to "Wallet" - "Withdraw".

### There are 2 alternative ways to access the withdrawal page:

- ① Go to "Wallet" - "Spot Account". Click on "Withdraw" in the top-right corner.
- ② In "Wallet" - "Spot Account", search the coin you want to withdraw and click on "Withdraw" at the end of its info bar.

The screenshot shows the Gate.io Wallet interface. At the top, there are buttons for "Deposit", "Withdraw" (highlighted with a red box), and "Transfer". Below this is a navigation bar with "Spot Account" selected. The main area displays "Spot assets" and "Cumulative gains" for USD. A search bar is highlighted with a red box. Below the search bar is a table of assets with columns for "Coin", "Crypto Lending", "Available", "Amount", "Total", "USD", and "Cumulative gains". The table lists BTC, LTC, ETH, and BCH. Each row has "Deposit", "Withdraw" (highlighted with a red box), and "Trade" buttons.

| Coin               | Crypto Lending | Available | Amount | Total | USD   | Cumulative gains | Action                 |
|--------------------|----------------|-----------|--------|-------|-------|------------------|------------------------|
| BTC<br>Bitcoin     | *****          | *****     | *****  | ***** | ***** | *****            | Deposit Withdraw Trade |
| LTC<br>Litecoin    | *****          | *****     | *****  | ***** | ***** | *****            | Deposit Withdraw Trade |
| ETH<br>Ethereum    | *****          | *****     | *****  | ***** | ***** | *****            | Deposit Withdraw Trade |
| BCH<br>BitcoinCash | *****          | *****     | *****  | ***** | ***** | *****            | Deposit Withdraw Trade |

Step 2: Make sure that "To Address" is selected and SPI is selected as the coin. Choose ETH/ERC20 chain. Fill in the address, Address description (optional), amount, fund password, SMS code, email code, and TOTP/Gate authenticator code (if TOTP has been set up). Then click on "Submit request".

The balance of the coin to be withdrawn, the day withdrawal limit, 24-hour net withdrawal limit, and handling fee are displayed on this page.

## How to Withdraw G/SPI on KuCoin?

### Step 1:

Web: Log in to your KuCoin account, then find the withdrawal page. You may type the token name in the search box, or scroll down and click on the token you want to withdraw.

App: Log in to your KuCoin account, then click "Assets" - "Withdraw" to enter the withdrawal page.

## Step 2:

Once you have selected the correct token, you will need to add the wallet address (composed of remark name and address), select the chain which is ERC20 for SPI, and enter the amount. The Remark is optional. Then click "Confirm" to carry out the withdrawal.

Network <sup>?</sup> :

SPI Amount:  24H Withdrawal Limit: 0/200.00000000BTC

Min withdrawal amount: 2 Max 0

Remarks:

Fee: -- SPI <sup>?</sup>

Confirm 0

\* Kind reminder:

1. If the balance is insufficient when conducting a withdrawal, it's likely that your assets are stored in the trading account. Please transfer the assets to the main account first.
2. If the address shows that "Contain invalid or sensitive information" or is incorrect, please double-check the withdrawal address or contact **online support** for further check. Please do not transfer tokens via unsupported chains or addresses.
3. You can check the mini withdrawal amount as well as the withdrawal fee on the withdrawal page.
4. Check if your SPI is on "main wallet", if it's on "trading wallet" you need to transfer it to your main wallet before withdrawing.

### Step 3:

Input your trading password> E-mail verification code> Google 2FA code or SMS verification code to complete all the withdrawal steps.

The image shows a 'Security Verification' dialog box with a close button (X) in the top right corner. It contains the following elements:

- Trading Password :** A label followed by six empty input boxes. A red arrow points to the first box.
- Email Verification Code :** A label followed by a 'Send Code' button and an 'Email Verification C' input field. A red arrow points to the 'Send Code' button.
- Google Verification Code :** A label followed by a 'Google Verification Code' input field. A red arrow points to the input field.
- Switch to SMS Verification**: A blue text link.
- Submit**: A large blue button. A red arrow points to the button.

\* If you meet problems in verifying the trading password, email code, or Google 2FA/SMS code, please refer to the following links for further help:
